

Segment Evidence Deep Dive - 2026-05-24

Scope: short-term AI capex second-order candidates. This report uses local SEC/IR/transcript evidence only, not RSS headlines.

Follow-through: company-level verification notes are in `reports/company-notes-2026-05-24.pdf`.

Analyst Takeaway

- ****Upgrade for deeper work: Copper / Cables / Electrification Metals.**** Primary-source evidence is now the cleanest among the second-order candidates: Freeport explicitly links copper demand to data centers and AI growth, while Eaton has direct data-center modular power exposure through Fibrebond. This supports moving the segment from broad electrification sympathy toward a real AI power-chain beneficiary, though single-name crowding still matters.
- ****Upgrade, but narrow the definition: Water / Zero-water Cooling / Treatment.**** The strongest evidence is not generic water scarcity; it is Ecolab's CoolIT acquisition and Vertiv's AI-ready thermal / chilled-water positioning. Treat this as liquid cooling / coolant / thermal infrastructure, not a pure water utility trade.
- ****Keep as watch, not core: HTCC / Ceramic Packaging Materials.**** Evidence supports optical/photonics/datacom strength, but direct ceramic / HTCC customer proof is still weak. This remains a mapping-validation project, especially for A-share names.
- ****Keep as second-proof: Natural Gas Midstream.**** There is pipeline/compression/power language, but the evidence does not yet prove data-center demand is converting into contracted gas transport or compression economics. Needs company-level project proof.
- ****Keep as second-proof: AI Applications / Agents / ROI.**** There are many AI adoption and product references, but also cost / ROI / competition language. The next proof must be paid adoption, ARPU, workload growth, retention, or margin evidence.

Segment	Evidence state	Sources hit	Positive hits	Negative hits	What must be proven
Natural Gas Midstream / Pipeline / Compression	needs second proof	4	11	10	Look for data-center or power-generation demand translating into contracted pipelines, compression, laterals, or firm transport.

Copper / Cables / Electrification Metals	evidence improving	28	73	15	Look for AI/data-center load appearing in copper demand, grid equipment demand, or electrical backlog, not just generic electrification.
HTCC / Ceramic Packaging Materials	evidence improving	14	51	22	Look for explicit optical/CPO/silicon-photonics packaging demand. If only generic photonics appears, keep mapping weak.
Water / Zero-water Cooling / Treatment	evidence improving	15	52	0	Look for data-center water treatment/cooling demand, not broad industrial water exposure.
AI Applications / Agents / ROI	needs second proof	26	62	40	Look for explicit paid adoption, ARPU, workload, retention, or margin evidence that can justify capex.

Company Workplan

This converts segment evidence into a short research queue. `priority verify` means the segment evidence is improving and the stock is not automatically excluded by crowding; `mapping proof` means the theme is plausible but company revenue linkage is not proven; `second proof` means the segment still needs a harder bridge from narrative to economics.

Segment	Ticker	Action	Evidence +/-	Sources	Crowding	3M	1Y	Next check
Copper / Cables / Electrification Metals	ETN	priority verify	+10 / -2	5	中高拥挤	+4.3%	+23.3%	Look for AI/data-center load appearing in copper demand, grid equipment demand, or electrical backlog, not just generic electrification.
Copper / Cables / Electrification Metals	SCCO	priority verify	+10 / -2	4	中高拥挤	-6.0%	+106.7%	Look for AI/data-center load appearing in copper demand, grid equipment demand, or electrical backlog, not just generic electrification.
Water / Zero-water Cooling / Treatment	XYL	priority verify	+7 / -0	4	拥挤度尚可	-14.4%	-10.0%	Look for data-center water treatment/cooling demand, not broad industrial water exposure.
Copper / Cables / Electrification Metals	FCX	priority verify	+6 / -3	2	拥挤度尚可	-0.7%	+60.7%	Look for AI/data-center load appearing in copper demand, grid equipment demand, or electrical backlog, not just generic electrification.
Water / Zero-water Cooling / Treatment	ECL	priority verify	+6 / -0	2	拥挤度尚可	-15.6%	-2.0%	Look for data-center water treatment/cooling demand, not broad industrial water exposure.
Copper / Cables / Electrification Metals	APH	priority verify	+5 / -2	3	拥挤度尚可	-12.5%	+55.5%	Look for AI/data-center load appearing in copper demand, grid equipment demand, or electrical backlog, not just generic electrification.
HTCC / Ceramic Packaging Materials	COHR	mapping proof	+26 / -11	6	高拥挤	+62.4%	+381.2%	Look for explicit optical/CPO/silicon-photonics packaging demand. If only generic photonics appears, keep mapping weak.
HTCC / Ceramic Packaging Materials	LITE	mapping proof	+20 / -6	4	高拥挤	+49.0%	+1149.7%	Look for explicit optical/CPO/silicon-photonics packaging demand. If only generic photonics appears, keep mapping weak.

HTCC / Ceramic Packaging Materials	GLW	mapping proof	+3 / -2	2	高拥挤	+49.6%	+307.3%	Look for explicit optical/CPO/silicon-photonics packaging demand. If only generic photonics appears, keep mapping weak.
HTCC / Ceramic Packaging Materials	APH	mapping proof	+2 / -3	2	拥挤度尚可	-12.5%	+55.5%	Look for explicit optical/CPO/silicon-photonics packaging demand. If only generic photonics appears, keep mapping weak.
AI Applications / Agents / ROI	MSFT	second proof	+26 / -11	11	中高拥挤	+5.3%	-6.3%	Look for explicit paid adoption, ARPU, workload, retention, or margin evidence that can justify capex.
AI Applications / Agents / ROI	NET	second proof	+9 / -7	3	高拥挤	+12.2%	+36.8%	Look for explicit paid adoption, ARPU, workload, retention, or margin evidence that can justify capex.
AI Applications / Agents / ROI	DDOG	second proof	+7 / -5	3	高拥挤	+84.3%	+94.2%	Look for explicit paid adoption, ARPU, workload, retention, or margin evidence that can justify capex.
Natural Gas Midstream / Pipeline / Compression	WMB	second proof	+6 / -4	2	中高拥挤	+9.5%	+37.4%	Look for data-center or power-generation demand translating into contracted pipelines, compression, laterals, or firm transport.
AI Applications / Agents / ROI	META	second proof	+6 / -6	2	n/a	n/a	n/a	Look for explicit paid adoption, ARPU, workload, retention, or margin evidence that can justify capex.
AI Applications / Agents / ROI	NOW	second proof	+6 / -1	3	中高拥挤	-4.9%	-49.2%	Look for explicit paid adoption, ARPU, workload, retention, or margin evidence that can justify capex.
AI Applications / Agents / ROI	CRWD	second proof	+5 / -5	2	高拥挤	+57.2%	+45.6%	Look for explicit paid adoption, ARPU, workload, retention, or margin evidence that can justify capex.
Natural Gas Midstream / Pipeline / Compression	EQT	second proof	+4 / -3	1	拥挤度尚可	-2.8%	+5.4%	Look for data-center or power-generation demand translating into contracted pipelines, compression, laterals, or firm transport.
